| <ul style="list-style-type: none"><li>• 4 Wheel Simulators</li><li>• 8 Right Hand Stud Extenders</li><li>• 8 Right Hand Jam Nuts</li></ul> | <ul style="list-style-type: none"><li>• 8 Decorative Jam Nut Covers</li><li>• 4 Center Emblems</li><li>• 1 Installation Tool</li></ul> |
|--|--|

**Note:** This system can be installed with the installation tool provided. No other tools are necessary. Do not use power tools for installation. Eagle Flight® recommends storing the tool with the vehicle's tire tool for future use.

1. Do not remove the original equipment lug nuts.
2. Determine correct placement of stud extenders required for proper hand hole alignment.
3. Install appropriate stud extender on the portion of the wheel studs that protrudes through the original equipment lug nut on opposing studs.
4. Tighten stud extenders with included installation tool.
5. Install simulator over stud extenders. Now, install the jam nuts on the stud extenders. Use the included tool to tighten jam nuts.
6. Install jam nut covers over the jam nuts.
7. Complete the wheel simulator installation by applying hub center decals.
8. Repeat steps 2 through 7 for installation of the other wheel and axle covers.
