

# EAGLE FLIGHT® STAINLESS STEEL WHEEL SIMULATORS

## JDGM19510-09

### INSTALLATION INSTRUCTIONS

(Typical Diagram on Back)

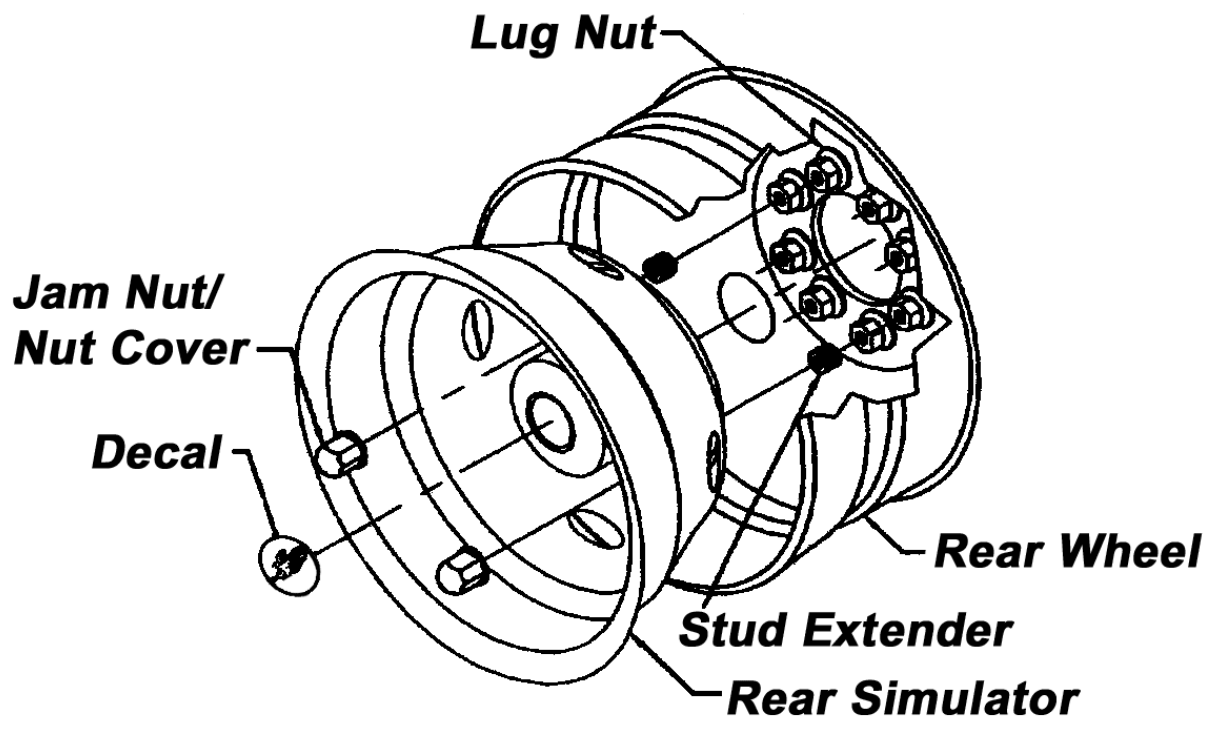

Front Axle Set	Rear Axle Set
<ul style="list-style-type: none"><li>• 2 Front Wheel Simulators</li><li>• 6 Mounting Extenders</li><li>• 6 Attachment Jam Nuts</li><li>• 2 Center Emblems</li></ul>	<ul style="list-style-type: none"><li>• 2 Rear Wheel Simulators</li><li>• 4 Mounting Extenders</li><li>• 4 Attachment Jam Nuts</li><li>• 2 Center Emblems</li><li>• 1 Installation Tool</li></ul>

**Note:** This system can be installed with the installation tool provided. No other tools are necessary. Do not use power tools for installation. Eagle Flight® recommends storing the tool and these instructions in the vehicle's glove box for future use.

## Installation Instructions

1. Do not remove the original equipment lug nuts.
2. Determine correct placement of Mounting Extenders required for proper hand hole alignment.
3. Install appropriate Mounting Extender on the portion of the wheel studs that protrudes through the original equipment lug nut on appropriate studs.
4. Tighten Mounting Extender with included Installation Tool.
5. Install Wheel Simulator over Mounting Extenders. Next install the Attachment Jam Nuts on the Mounting Extenders.
6. Check to be sure the Wheel Simulator is centered on the wheel. (Failure to Wheel Simulator may result in throwing the wheel off balance).
7. Use the included tool to tighten Attachment Jam Nuts.
8. Complete the Wheel Simulator installation by applying Center Emblems.
9. Repeat steps 1 through 8 for installation of the other Wheel Simulators.
