JDGM19510-09

INSTALLATION INSTRUCTIONS

(Typical Diagram on Back)

Front Axle Set	Rear Axle Set
<ul style="list-style-type: none">• 2 Front Wheel Simulators• 6 Mounting Extenders• 6 Attachment Jam Nuts• 2 Center Emblems	<ul style="list-style-type: none">• 2 Rear Wheel Simulators• 4 Mounting Extenders• 4 Attachment Jam Nuts• 2 Center Emblems• 1 Installation Tool

Note: This system can be installed with the installation tool provided. No other tools are necessary. Do not use power tools for installation. Eagle Flight® recommends storing the tool and these instructions in the vehicle's glove box for future use.

Installation Instructions

- 1. Do not remove the original equipment lug nuts.**
- 2. Determine correct placement of Mounting Extenders required for proper hand hole alignment.**
- 3. Install appropriate Mounting Extender on the portion of the wheel studs that protrudes through the original equipment lug nut on appropriate studs.**
- 4. Tighten Mounting Extender with included Installation Tool.**
- 5. Install Wheel Simulator over Mounting Extenders. Next install the Attachment Jam Nuts on the Mounting Extenders.**
- 6. Check to be sure the Wheel Simulator is centered on the wheel. (Failure to Wheel Simulator may result in throwing the wheel off balance).**
- 7. Use the included tool to tighten Attachment Jam Nuts.**
- 8. Complete the Wheel Simulator installation by applying Center Emblems.**
- 9. Repeat steps 1 through 8 for installation of the other Wheel Simulators.**
